

Kern Lipid Conference 2017

ABSTRACT DEADLINE: April 30, 2017

CALL FOR ABSTRACTS

“The Gut Microbiome, Bile Acids, and Regulatory Networks in Health and Disease: Emerging Therapeutic Approaches”

Vail Marriott Mountain Resort, Colorado USA – August 7-9, 2017

The Kern Lipid Conference invites all Early Career Investigators to submit abstracts relevant to the study of lipid metabolism for the upcoming conference in Vail Colorado August 7-9, 2017.

More information about the conference and registration is available at:

<https://kernconference.org/awards.html>

Eligible candidates must be a graduate student or post-doctoral student from an academic, government, or non-profit entity. All abstracts will be peer reviewed by a committee; accepted abstracts will be included in a poster session at the conference. Awardee will receive a travel stipend check in the amount of \$750, and their registration fee will be waived. Submissions must be received by **April 30, 2017**. **When registering, please register as “Travel Award/Scholarship Applicant.” Make sure to upload the required documentation at the time of registration.**

Guidelines:

- Applicants must submit their CV, an abstract relevant to the study of lipid metabolism, and a letter from the PI of their lab or group confirming their status as a student or post doc
- All required documents must be submitted at the same time
- Abstracts should be no longer than 400 words, excluding author(s) names and titles
- Once abstracts have been accepted, no revisions will be permitted.

Awardees will be expected to:

- Prepare and present a poster based on the abstract submitted
- Be available for questions during the poster session
- Attend all conference sessions.

Abstracts will be published in the annual program which is distributed to all participants at the Kern Lipid Conference. Award recipients are expected to be in attendance for every session and every lecture on the last day. Award checks will only be dispersed at the conclusion of the conference; recipients should plan their travel accordingly.
